Roving squadrons of Iconoclast class destroyers have been a constant peril to shipping. Mainly used by pirates and other lawless bands, the Iconoclast is similar in design to a variety of small escort ships turned out by almost every shipyard. Although compact, they carry a fearsome amount of firepower for their size and when encountered in numbers can be a threat to even a capital ship. In fleet actions, they mainly engage enemy escorts, gun down attack craft and destroy incoming torpedoes. The *Carrion Squadron*, a band of renegades operating off the Duran moon, became infamous for their skill at convoy attacks, daringly darting amongst the convoy's defence vessels to destroy the transports before escaping. The *Lost Souls* also achieved notoriety for their part in the Faustus Assault. It was their vicious hit and run attacks that destroyed half of Faustus' orbital defences, allowing the *Excessive* and *Plagueclaw* to bombard that world in preparation for the subsequent landing.
