SPECIAL		• Transports do not have the powerful drives routinely fitted to warships. Transports using <i>All Ahead Full</i> orders only add +3D 6cm to their speed. • Transports reduce their randomly rolled Leadership by one, so they will have a Leadership value of between 5 and 8. • Transports have 'special' for their points value as they are usually only used as objectives in missions or as fire ships for planetary defence purposes.			

Although, to our knowledge, the Chaos forces did not build merchant transports of their own during the Gothic War, they did make ready use of captured Imperial vessels. Often these merchant ships showed signs of hasty repairs to damage suffered during their capture, while towards the end of the Gothic War, hijacked vessels that had been in the service of Chaos for many years began to show signs of the warping influence of the Dark Gods. These vessels were mostly crewed by pirates, cultists and renegades and were generally poorly manned. One can only surmise that the followers of Chaos were loathe to take part in such passive activities as transporting weapons, slaves and foodstuffs to the Chaos fleets.
