Keel torpedoes		30 cm		2	
Prow weapons battery		30 cm		1	
				Front	

Perhaps the most heavily armed escort ship of the Gothic sector, the Hellebore is the embodiment of Eldar ideals and technological supremacy. Although unable to withstand much damage, it carries enough weaponry to match even an Imperial light cruiser and to inflict horrendous damage on larger vessels. When deployed in squadrons, the Hellebore is a lethal combination of speed, flexibility and hitting power, combining the long-range capabilities of torpedo launchers with the solid firepower of a pulsar lance and laser battery. Hellebores excel at ambush attacks, are able to disrupt the enemy formation with their torpedo attacks and then attack in strength against any stragglers thus created. This tactic was employed very successfully on many occasions during Imperial forays into the Graildark Nebula. In fact, it was a squadron of three Hellebore frigates that reduced the *Fortitude* to a hulk and crippled the *Sword of Orion* during the abortive Picus Offensive in the final years of the Gothic War.
