SPECIAL	• Their turret strength is 3 as part of their basic profile and point cost. This does not affect their ability to take an additional turret as part of Battlefleet Bakka. • The specifications for these vessels relied heavily on a degree of compartmentalization that proved too cumbersome for later ship designs. However, this results in the Endeavour light cruisers getting a +1 to their dice roll when defending against a boarding action.				
	OPTIONS • May increase the prow armour to 6+ for no additional cost. However, if this option is taken, the turning radius of these vessels is reduced to 45 degrees.				

Endeavour and Endurance class light cruisers are popular as convoy flagships and are commonly seen paired together in Battlefleet Bakka. The most famous convoy leader in Battlefleet Bakka is the *Resolute*. This ship has accounted for more than 17 pirate ships and 204 attack craft in its 400 year career. It particularly distinguished itself at Heaven's Split where, with only two under-strength squadrons of Cobras, it fought off continuous waves of Ork attack craft for two days until the escort squadron *Silver Wolves* drove off the greenskins. Admirals have also found these classes effective as fleet escorts, and it has become common practice to pair battleships and light cruisers in Battlefleet Bakka. Because of the role these ships fulfil within the fleet, many of the Fleet Defence turrets constructed at the Bakka shipyards have been requisitioned for these ubiquitous vessels. Despite horrific losses, these warships served with great valour during the First Tyrannic War.
