SPECIAL • The <i>Jovian</i> is a unique vessel. Only one may be included in an Imperial fleet. It is a reserve vessel of Battlefleet Bakka and can only be used as such by Bakka fleets and not with other fleet lists. • The <i>Jovian</i> was fitted with an improved sensor array during its conversion to accurately control its prodigious squadrons of attack craft. It gains a +2 bonus when the enemy is on special orders instead of +1. • Its prow Nova Cannon was never replaced after the Stabulo Campaign; if the ship suffers prow critical damage, it may ignore the result entirely instead of moving up the table.					

The *Jovian* is viewed with misgivings by many authorities in Battlefleet Bakka, as history and tradition are hard to set aside in the Imperial Navy in general and by the fleetlords of Bakka in particular. With the history of the Garerox Prerogative required reading in the fleet academies, the very idea that the Imperial Navy should need a dedicated attack craft carrier is viewed as anathema. However, the horrors of the First Tyrannic War cast a negative light on Battlefleet Bakka's inherent distrust of attack craft, and while their tactics of relying on massed battery and lance fire proved effective, it was only prudent that more attack craft should be made available to support the battlefleet. While the prodigious output of a Mechanicus forgeworld can see a new cruiser put to space several times a year, this is only through economies of scale, as a single cruiser hull can take more than a decade to construct from the keel-up for even the best and most well-supplied shipyards, and many smaller shipyards take decades and the resources of an entire world to construct a single such vessel. To this end the encroaching Tyranid fleet meant Bakka had no time for such an endeavour. Salvation came in the form of the *Jovian*, a venerable Mars battlecruiser laid up after having its prow and forward battery decks smashed apart during the Stabulo Campaign. Languishing for centuries as resources were applied to more pressing matters, the process of converting its damaged battery decks into launch bays proved to be relatively straightforward. Completed with too little time even for proper space trials but with a full complement of Bakka's ablest attack craft crews, the *Jovian* acquitted itself well and was one of the twelve capital ships able to fight its way back to Bakka after the crucial Battle of Circe. Despite its success, the fleetlords of Bakka hold fast to their big-gun philosophy, and it is unlikely another ship of this class will be requisitioned by Segmentum Naval authority.
