The venerable Sword class frigate has ably served Battlefleet Obscuras for thousands of years. Every part of the vessel's design and construction has been tried and tested in innumerable engagements. The Sword's laser-based weapons batteries and substantial turret array have an exceptional ready level of 88.2 %. Its plasma drives are simple, sturdy units copied many times on other ships and can be serviced by artificers with minimal training. A classic escort vessel in every respect, few battleships fight without at least a pair of Swords to guard their backs against enemy destroyers and attack craft.
