In internal layout, the Victory class shares many similarities with the Retribution, and Imperial Navy analysts speculate the design is a byproduct of grafting lance weaponry onto the improved power conduits and relays of the Retribution template in an attempt to replicate the Apocalypse battleship class while overcoming various shortfalls inherent with that ancient design. In this respect it has proven successful, though it still is not capable of delivering the level of firepower that ancient class was capable of when the Imperium was still able to reliably fabricate its sophisticated but difficult to maintain power transfer relays. Nonetheless, the Victory makes up for firepower with its far more robust and reproducible design, and it has had many successes throughout the Tempestus and Ultima Segmentae. The Technomagi of Mars refuse all requests for access to their records of origin, and the shipwrights of Bakka have proven to be equally recalcitrant.

Four Victory class battleships serve in Battlefleet Bakka, the *Victory* being by far the oldest. The *Argus* particularly distinguished itself, leading the fleet that cleaned the Stabulo systems of the deviants that polluted various sectors along the border region between Segmentum Tempestus and Ultima. The *Hammer of Scaro* was rebuilt with prow torpedoes instead of replacing its Nova Cannon after receiving severe damage ramming the Ork Hulk *Gungedrinka* at the Battle of Lexus. All four of Bakka's Victory battleships served against Hive Fleet Behemoth, and three returned from the pivotal Battle of Circe.
