SPECIAL At least half the Rogue Trader cruisers in an Exploration fleet must be of the basic profile listed above.					
OPTIONS Rogue Trader cruisers in an Exploration fleet may also be of the following Imperial or Chaos ship classes: Lunar, Tyrant, Carnage or Murder (even if used as a loyalist ship), for their normal point cost, +15 points if the ship is equipped with lances or 60 cm weapons due to the additional expense maintaining such weapons, as reflected in the fleet list. Chaos vessels used as loyalist ships must be painted as such, and no special variants in the notes of these ships' profiles can be used. For example, the Tyrant can't take boosted batteries or a Nova Cannon, etc.					

Imperial cruisers are gigantic constructions, most of them centuries or even millennia old. Those few that are constructed anew are often the result of years of toil by the population of an entire world – enormous shipyards that might produce a single vessel every few decades. Even the mighty Forgeworlds with their unimaginably vast, serried ranks of orbital docks and laying yards may only complete one of these behemoths every year or so despite easily having a dozen or more of them in varying stages of construction at any one time. Such gargantuan efforts are beyond the ken of even Rogue Traders. Rather, most Rogue Traders rely on vessels built (and often owned) by others. Many cruisers are in fact part of the warrant of trade itself, an undeniably powerful aid gifted to the Rogue Trader by the Administratum as a bequest to their agent abroad. Other vessels are loaned to Rogue Traders more temporarily, perhaps being themselves Navy vessels given over to a Rogue Trader for a time where Imperial command thinks it beneficial.

Rogue Trader vessels are unique, exotic things, often exhibiting many signs of their colourful adventures. Although typically based around the hulls of the more common Imperial cruiser classes, Rogue Trader vessels are subject to constant refit and adornment, much of it alien in origin, creating truly unique vessels. The business of a Rogue Trader can take him all over the galaxy and, while his vessel's class or hull pattern
