Just as the Lar'shi is the Tau response to the Imperial Lunar class the Kir'Qath is their answer to the Imperial Sword class. The Kir'Qath is the only true escort in the Tau fleet and is used in squadrons to provide close support for the larger vessels. Its main weakness is the lengthy recharge time for its drives. It can make up to half a dozen warp dives in succession but will then be unable to do any more for at least a rot'aa. This means it is not suitable for scouting as it either travels slowly across interstellar space or risks being unable to retreat when it arrives. This can make it a liability in rapid fleet manoeuvres consequently squadrons are spread through Tau space where heavier units can call upon them for support if required.
