Choose one of the following for the point cost listed below:					
Launch bays		Barracudas: 25 cm Mantas: 20 cm		1 squadron	
Gravitic hook		-		Capacity: 1 Orca/Warden	
Railgun battery		45 cm		3	
Ion cannon		30 cm		1	
All round		All round		All round	
SPECIAL • Tau Waystations can be used in any scenario where the Tau are defenders, even if planetary defences are not normally permitted. • Because of their immense data handling facilities they count as having tracking systems. • Choose one of the defence systems below. This defines the point cost for the waystation.					
OPTIONS • Launch Bay: 30 pts • Gravitic hook: 25 pts (Orca/Warden needs to be purchased separately) • Railgun battery: 35 pts • Ion Cannon Turret: 35 pts					

Waystations are distributed through the Tau Empire. They mark out the main routes between Tau septs and are used to speed communications between outposts.
