The *Warmaker* was once one of the most highly praised vessels in the Gothic fleet, but is now numbered amongst its most hated enemies. Before the Gothic War, the *Warmaker* acted as a fleet training vessel, having been retired from active duty following thirteen highly praised centuries as flagship to the 4th Heavy Cruiser Flotilla. Who can say how long the foul grip of Chaos had festered within its armoured hull, how many promising naval officers were taught false ideals in the midst of the *Warmaker's* corruption, before being spread to every corner of the fleet to promulgate their despicable beliefs amongst their crews. This base treachery was only discovered with the outbreak of the Gothic War, when the *Warmaker* opened fire on Jamu Orbital Station, shortly after breaking from dock. The wreckage of the space station fell onto Jamu Capital, killing nearly three and a quarter million Imperial citizens in the resulting mass conflagration. The *Warmaker* easily outdistanced the few vessels in position to give pursuit and was next sighted accompanying a fleet of marauders blockading the Slavonis system. To this date, the *Warmaker* has eluded capture or destruction, twice being crippled, but managing to limp to safety under the cover of its escorts.
