SPECIAL • The Retaliator class grand cruiser completely ignores prow critical damage, regardless of the cause. If any critical damage rolled against the table results in a Prow Armament Damaged critical hit, it is assumed the critical damage did not take place, and it does not move up to the next higher critical damage. If the critical damage is caused by the ship taking a hit, the hit itself still counts normally.					
OPTIONS • Can be equipped with improved thrusters and may move 5D6 cm when on <i>All Ahead Full</i> orders (like the <i>Foebane</i>). This costs no extra points.					

The Retliator class was part of the Galan V garrison fleet that mutinied against Imperial rule in M35. After a two day pitched battle around the planet's three moons which saw four of the traitor vessels destroyed, taking three Imperial cruisers with them, the rebel squadron disengaged, fled out of the system and made the jump into the Warp, led by the squadron command vessel, *Foebane*. Since the Treachery of Galan the squadron (which has now taken its command ship's name) has been identified as part of the raiding fleets of three renegade Warmasters, and has been involved in fleet actions in Segmentum Obscurus, Segmentum Solar and Ultima Segmentum. The *Foebane* and her sister ships were last positively identified during the Raid on Magdellan Prime, now over 100 years ago, which destroyed fifty percent of the planet's orbital defences.
