SPECIAL A Hemlock class destroyer cannot initiate boarding actions. A ship that boards a Hemlock class destroyer gains a +1 modifier in addition to any other modifiers.					

The Hemlock is notable for its simplicity of design. It consists of a powerful pulsar lance, highly efficient drives, and little else. Admiral Grove once described the Hemlock as "... more of a mobile gun than a proper starship". With the power needed for the stellar drives and pulsar lance, even considering advanced Eldar engine technology, the Hemlock probably cannot generate a stable interior environment for much more than the crew members needed for steering the ship and firing the pulsar. This makes it especially vulnerable to boarding actions from enemy escorts – if they can get close enough to board.
