The Dominator class cruiser is an unusual vessel of a class originally built to act as a fleet support unit for major engagements and planetary assaults. It was designed to hang back and use its massive nova cannon to bombard the enemy at extreme range. Dominator class cruisers are far more common to Battlefleet Ultima than Battlefleet Obscuras, the vast majority being built at the fleet base at Kar Duniash. The only Dominator class vessel serving in the Gothic Sector at the outset of the war was the *Hammer of Justice* under the command of Captain Grenfeld. Although it had always performed poorly on exercises and had an undistinguished prior history, the vessel rose to the challenge of full war and fought with vigour and resolution at every opportunity. The potency of the somewhat cumbersome nova cannon was ably illustrated by Captain Grenfeld at the Port Maw blockade and the raid on Alios. Indeed, over the course of the war a number of other vessels undertook major refits to replace their prow armaments with nova cannon.
