| Port weapons battery                                                                  |       | 45 cm              | 12            |        | Left             |
| Starboard weapons battery                                                             |       | 45 cm              | 12            |        | Right            |
| Prow launch bays                                                                      |       | Thunderhawk: 20 cm | 3 squadrons   |        | –                |
| Prow torpedoes                                                                        |       | 30 cm              | 6             |        | Front            |
| Dorsal bombardment cannon                                                             |       | 30 cm              | 8             |        | Left/front/right |
| <b>SPECIAL</b> • A battle barge cannot use <i>Come to New Heading</i> special orders. |       |                    |               |        |                  |

Most Space Marine Chapters control two or three battle barges. They are very brutal vessels, with only one purpose behind their design.

As might be expected, a battle barge, is configured for close support of planetary landings and carries numerous bombardment turrets and torpedo tubes. A considerable amount of hull space is given over to launch bays for intra-system craft and drop pods, observations indicating that up to three companies can deploy simultaneously.

The vessel is extremely heavily armoured and well shielded, presumably so that it can breach planetary defences without harm coming to its cargo. Naturally the battle barge would make a frightening opponent in any situation where boarding is involved.
