Of all the vessels in the service of the Adeptus Astartes, the Nova class frigate is commonly the single class to which the Imperial navy take the most exception. It lacks sufficient size to really fulfil the deployment and assault roles for which Space Marine ships are primarily intended and its lance armament and speed make it a menacing gunboat in its own right. As such, the Nova remains rare in most Space Marine fleets, a trend the Imperial Navy, the Inquisition and other institutions perpetually concerned by the balance of power would dearly love to see continue.
