SPECIAL	- Il'Emaar merchant transports support the Kor'vattra in a variety of missions but are usually crewed by more junior members of the Kor-caste. They have a -1 modifier when determining base leadership. - These vessels are reserved for scenarios that require transports, for which they have the value of a full transport or two assault points.				

Their long and protracted war with the Or'es'la proved early on that the numerous but relatively fragile merchantmen that were the life-blood of the rapidly expanding Tau Empire were woefully inadequate. Continuing raids decimated the fleets of these small ships, requiring a whole and much larger class of heavily armed transport in the form of the Il'Fannor. As time progressed, smaller transport classes almost disappeared entirely, though many various types still found use among and between the major Septs of Tau space. However, as the Kor'or'vesh began operating throughout Tau space and beyond, a new kind of fast transport was required that could make long, deep dives in support of the fleet and quickly replenish forward-deployed flotillas. While this vessel was originally designed to support the Kor'or'vesh, the obvious utility of these vessels was expanded to the Greater Empire, and now these easily produced starships are common sights throughout Tau space and beyond.
