Starboard launch bays		Barracudas: 25 cm Mantas: 20 cm		3 squadrons	
Prow gravitic launcher		20–40 cm		8	
SPECIAL - The gravitic hooks of Custodian battleships are enclosed in a single shrouded, hangar-type enclosure specifically designed for Kir’la (Warden) gunships and are unsuitable for the transport of or to count for other escort types. - Custodian battleships cannot undergo <i>Come To New Heading</i> special orders. - Custodian battleships are equipped with a deflector that raises its prow armour to 6+. This is disabled whenever the vessel suffers a prow critical hit (repairable normally). - The Custodian has an integrated Tracking System coupled to an extremely sophisticated sensor suite. It has a range of 20 cm (instead of 10 cm).
