Defence/4	0 cm	0°	1	5+	3
ARMAMENT		RANGE/SPEED		FIREPOWER/STR	FIRE ARC
Choose one of the following for the point cost listed below:					
Launch bays	Barracudas: 25 cm Mantas: 20 cm		1 squadron	–	
Gravitic hook	–		Capacity: 1 Orca/Warden	–	
Railgun battery	45 cm		3	All round	
Ion cannon	30 cm		1	All round	
SPECIAL	• Tau Waystations can be used in any scenario where the Tau are defenders, even if planetary defences are not normally permitted. • Because of their immense data handling facilities they count as having tracking systems. • Choose one of the defence systems below. This defines the point cost for the waystation.				
OPTIONS	• Launch Bay: 30 pts • Gravitic hook: 25 pts (Orca/Warden needs to be purchased separately) • Railgun battery: 35 pts • Ion Cannon Turret: 35 pts				

Waystations are distributed through the Tau Empire. They mark out the main routes between Tau septs and are used to speed communications between outposts.
